RILEY TENOVE

To whom it may concern,

I wish to offer my services as an entertainer towards the event you are putting on this year. As a form of entertainment and engagement with audiences at events, I commonly **perform a live painting of the surrounding environment in order to capture and liven the atmosphere on site.**

-Kaleido Festival 2016

Watching a painting progressively form offers attendees a new way to encounter and enjoy their day at your festival. While watching and occasionally speaking with me about this process, most are taken aback when they return later in the day to witness how the painting has comes to life.

In the past, festivals and event makers have paid me in advance or upon completion for possession of the work created during the event. This makes great gifts to partners or perhaps a commemorative snapshot of the festival's success that year. I make artworks as large as I am able to finish in the timeframe of your festival. Typically, a painting is worth $130/day of labor spent working on it. This is negotiable when considering the time frame of your unique event.

For other events where funds were limited, I have been offered the opportunity to sell the work I create to those who express interest during the event, which helps pay for my time while giving attendees the wonder of the process.

If this opportunity interests you at all, please let me know and I would love to speak with you on how to best participate. Here is my website to showcase my skills: **www.rileytenove.space** .

Below I have attached my artistic resume (with contact information). I look forward to hearing from you.

Sincerely,

Riley Tenove
